ABOUT ME

- B.Tech student at Mohan Babu University with a focus on software development and web technologies
- Knowledgeable in Java, DSA, HTML, CSS, JavaScript, and responsive design
- Experience with Git, GitHub, Visual Studio Code, Canva, Postman, and Gemini AI
- Strong communication, team collaboration, and problem-solving skills.

EDUCATION

Bachelor of Technology (B.Tech)

Mohan Babu University, Andhra Pradesh

Major: Computer Science and Engineering

Expected Graduation: July 2027

CGPA: 9.54

PROJECTS

Thermoelectric Nano Coating – Research-Based Project

Explored the use of thermoelectric nano coatings to convert waste heat into usable energy, with applications in sustainable electronics and surface technologies.

- Conducted research on thermoelectric materials and nanostructures
- Analyzed efficiency, thermal conductivity, and potential real-world applications
- Collaborated as part of a team to present findings in a technical symposium
- Tools/Skills: Research, Technical Writing, Presentation Design

Portfolio Website

Built a personal portfolio using HTML, CSS, Bootstrap, and JavaScript.

- Fully responsive layout with project showcase and contact form
- Hosted on [GitHub](#)

CERTIFICATIONS

- Web Development Foundation Course
- Responsive Web Design
- J.P. Morgan - Software Engineering Job Simulation
- Prompt Design in Vertex AI Skill Badge

SKILLS

- Java
- python
- Data Structures
- Git and Github
- Canva
